## SUMMER IS COMING

## Is Your Home Ready?

SUMMER is such a gay and charming sort of guest that you'll want your home to reflect her holiday mood. You need not be prodigal with your purse—Summer is not exacting in that

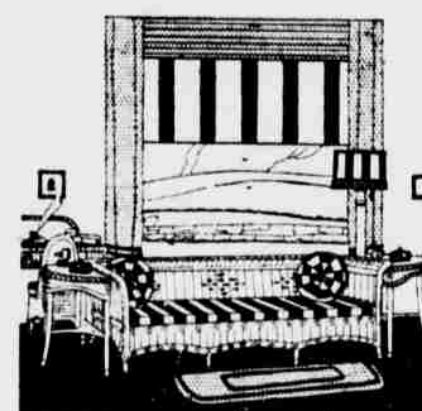

respect. Be prodigal with color, prodigal with comfort, and then you will attain that prodigality of charm which is the setting that Summer loves best.

We have spent so much time and thought in assembling these furnishings that it should be easy for you to make a choice.

## Summer Rugs

The care with which the Summer floor-coverings are chosen contributes largely to the success of the decorative ensemble.

And when there is as much latitude of choice as our collection affords, there should be no difficulty in finding just the type of rug which your particular needs demand.

Sturdy fibre rugs are especially desirable for out-door use for they are not injured by salt or damp air and are even improved by an occasional drenching. These are priced \$2.44 to \$16.14 according to size.

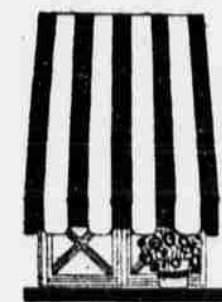

Macy's—Fourth Floor, Front.

There are quaint rag rugs reminiscent of Grandmother's day in their old-fashioned charm of coloring, but thoroughly up-to-date in their durability of weave, a modern achievement that even the patient hand-labor of a century ago could not accomplish. Prices range from \$2.98 to \$37.25 according to size.

Prairie grass rugs are clean, sweet-smelling and so smoothly woven that they may be used in a bedroom with no danger of a stray splinter getting in one's foot. Stencil designs in contrasting color lend variety. Prices range from \$1.14 to \$23.14 according to size.

## Awnings

A little knowledge is indeed a dangerous thing when it is applied to the making of awnings and slip-covers. They answer their purpose after a fashion even if they are made in a careless, slipshod manner, but they will scarcely answer their purpose after the fashion, for the fashion in these things is absolute correctness of fit, and consummate skill of workmanship.

## Slip Covers

Our workrooms are equipped with a staff of thoroughly experienced workmen; you can trust them with the most exacting work.

A complete assortment of appropriate materials will be found in our Upholstery section.

Estimates furnished on request. Macy's—Fourth Floor, Rear, 35th St.

## For the Garden

The things that grow and the things that make them grow will be found in our Garden Supplies Department. Whether you are gardening for pleasure or for profit, or for both—one thing is assured, you must do it right, for a garden yields what you put into it. We cannot supply the patience or the enthusiasm necessary for success, but we can supply the proper sort of tools and the proper sort of seed, and these go a long way toward inspiring the enthusiasm!

Every thing from a small package of seeds to a complete outfit for the professional gardener.

Macy's—Basement, 35th St., Rear.

The things that add comfort and charm to your garden will be found in our Garden Furniture section.

Here are gay couch hammocks, in which to loll away a Summer afternoon.

Here are quaint chairs, settees, and seats of natural hickory, as little removed from their rustic state as possible, so that they strike no offending note on the landscape.

Then there is the metal furniture especially designed for out-door use, because it is impervious to weather conditions. This includes chairs, tables, and sets of tables and chairs—the tables shaded by giant umbrellas, the chairs with slip-covers to match. Macy's—Sixth Floor
